Date 02/11/2016

On personal request of Director, St. John's Society for Education at Daulatpur Chandi, Hajipur, (Vaishali) visited the campus of under which St. John's Academy is running and found that it is housed in pucca building. It has proper sanitation, water supply, electrification and other fittings. The building is constructed by R.C.C. framework on pile foundation with brick work. The doors and windows are with proper fittings. So the building is secured and safe. It is earthquake proof with its design. The school is sufficient playground and sports facilities. So in my opinion the school has well established infrastructure and very good academic environment. The details of infrastructure are as follows:

Campus and building

1. Area of campus	89298 sft.
2. Buildup area	31142.97 sft (G.F.1 st and 2 nd floor.)
3. Area of playground	78918 sft.
4. No. of class rooms	33
5. Other rooms	3
6. Science Lab (Phy+ Chem+ Bio)	3
7. Computer Science Lab	1
8. Math Lab	1
9. Staff Room	2
10. Principal Room	1
11. Office	1
12. Small Rooms	3
13. Smart Classes	2
14. No. of Lavatory/ urinals (boys)	18
15. No. of Lavatory/ urinals (girls)	18
16. No. of Lavatory/ urinals (staffs)	3
17. Potable water	Yes
